Capital Gearing Trust

Overview

Capital Gearing Trust Overview

Investment Objective

- The Company's objective is to preserve, and over time to grow shareholders' real wealth
- The Company seeks cost-effective, long-term absolute returns via a global portfolio of equities, bonds and commodities
- Simple low-cost approach, no derivatives, no gearing, no short selling
- The Trust is actively managed, without reference to a benchmark

Fees and Structure

- Size: £1.1bn
- Management Fee: 0.37%¹ | Ongoing Charge Figure: 0.46%
- FTSE 250 Listed Investment Trust with a 41-year track record
- Discount Control Mechanism: The Company aims to purchase or issue shares to ensure, in normal market conditions, that the share price closely tracks the underlying Net Asset Value per share

Investor Profile

The fund has a broad range of investors who typically share the following characteristics:

- A long term investment horizon
- An aversion to significant loss over the short term
- A desire to generate returns ahead of inflation over the longer term
- A focus on GBP returns

^{1.} Tiered fee structure, marginal rate is 0.3% above £500m

Overview

CG Asset Management Overview

2001		
Founded	Founded in 2001 by Peter Spiller, former Chief Investment Officer and Chief Strategist of Cazenove	
£3.7bn		
AUM	£3.9bn in assets under management	
2		
Strategies	Manages two strategies, absolute return and real return, across five funds	
11		
Employees	Team of 11, based in London	
257x		
Return	Low cost offering, with fee reductions regularly reviewed	
2		
Down Years	Capital Gearing Trust ("CGT") has returned 257x since 1982, with only two down years	

Overview

CGAM in partnership with our clients

What makes us different? What does that mean for our clients? The client comes first The firm's founding Don't be greedy principles 3. Have fun In turn these principles mean that: We have and will close funds to protect investors We continuously strive to lower fees, even on closed funds We have **low staff turnover Employee owned** Majority owned by an Employee Ownership Trust which means we'll remain independent All portfolio managers are significant shareholders in CGAM The right incentives A significant majority of our own capital is invested in our funds Our interests are directly aligned with our clients' interests

Investment Process

Capital Gearing Trust

Principles

5 inputs drive our asset allocation, underpinned by a focus on duration

Valuations

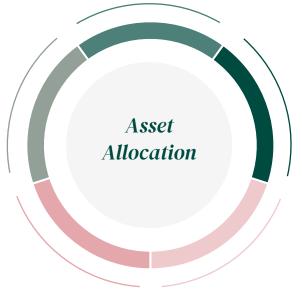

All major asset classes
Absolute / Relative / Relative to own history

Investor Behaviour

Degree of risk taking / speculative behaviours

Monetary Environment

Degree to which monetary backdrop is supportive of or threatening to asset prices

Core Macroeconomic Beliefs

Guiding long-term asset allocation

Business Cycle

Responding to changing inflation and growth environment

Duration

Keep duration short where values are poor and vice versa

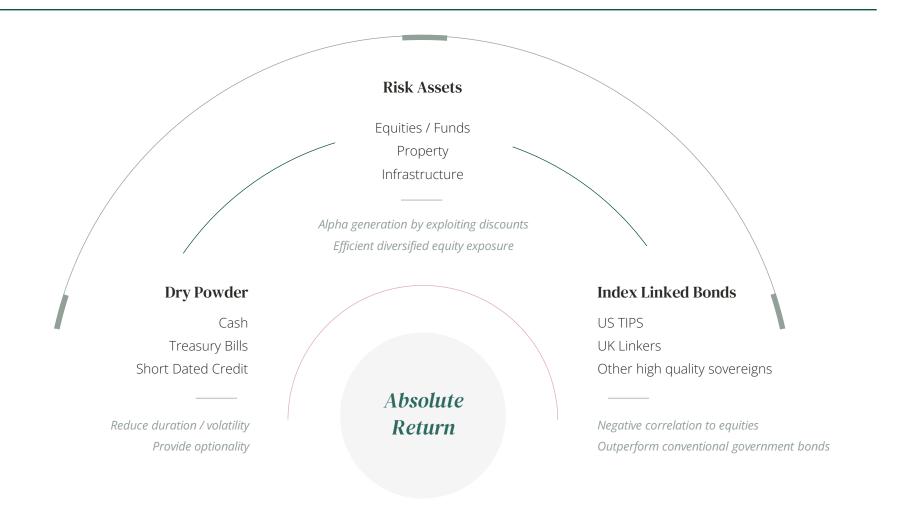

Dynamic asset allocation that responds to the business cycle

3 Core Asset Allocation Pillars

Investment Process

Index-Linked bonds are a fundamental component of our asset allocation

Protection against financial repression

Only asset that we believe is likely to deliver protection

Negative correlation with risk assets

Particularly overseas against sterling denominated risk assets

Historic outperformance vs nominal bonds

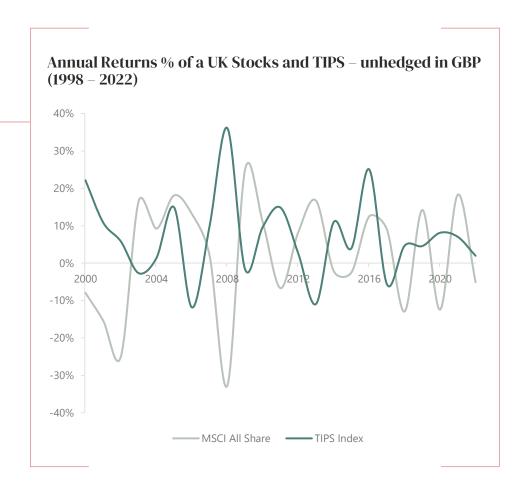

Such outperformance likely to persist into future

Inflation as greatest risk to investor wealth

Against which equities are only a partial hedge

Significant risk of inflation persistence

Historical record is not supportive of a swift return to target

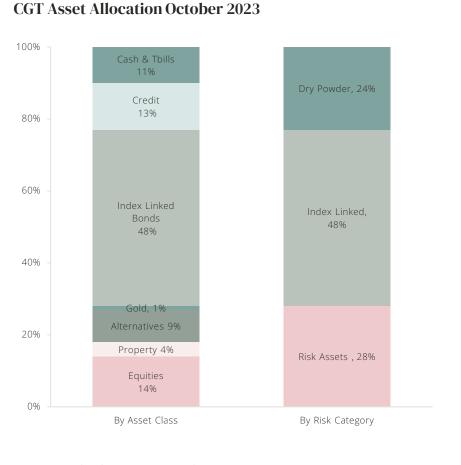

Capital Gearing Trust

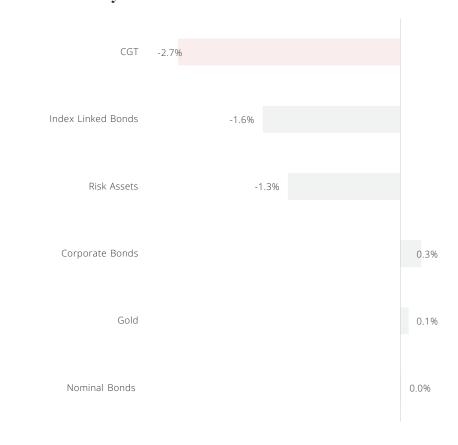

Positioning and Returns

Positioning is defensive, with a focus on inflation protection

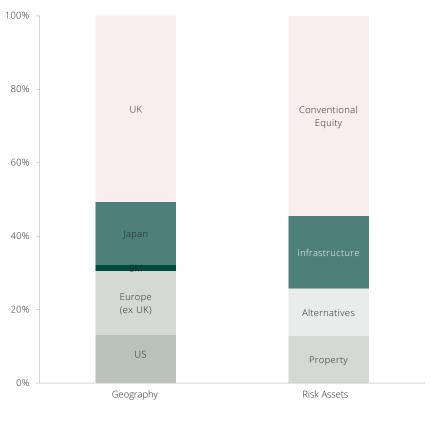

Contribution by Asset Class LTM October 2023

Source: CGAM, Bloomberg Finance L.P., Northern Trust

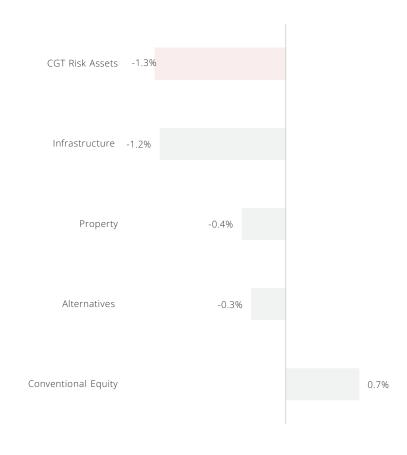

Interest sensitive risk assets have faced headwinds in the last year

CGT Risk Assets – Geographic Exposure and Asset Exposure

Alternatives include: Loan Funds, HY, PE & Hedge Funds Source: CGAM, Bloomberg Finance L.P., Northern Trust

Contribution by Risk Assets LTM October 2023

...however our largest equity positions have delivered strong performance

MSCI Japan ESG Screened ETF Performance (USD) LTM

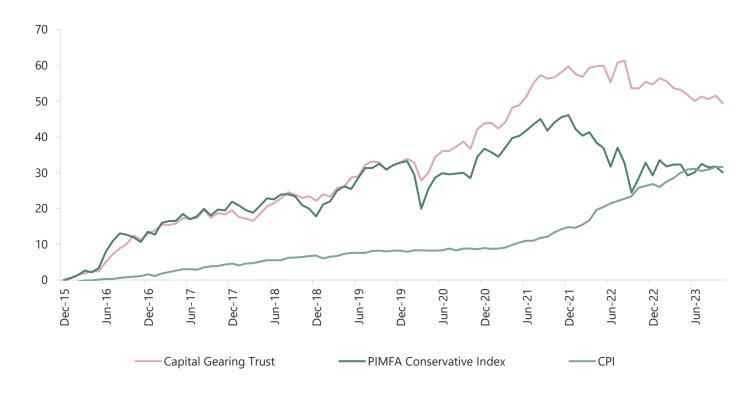

MSCI Europe Energy ETF Performance (EUR) LTM

CGT has outperformed comparators on an absolute and risk adjusted basis

CGT vs. Comparators: Total Returns to October 2023^{1,2}

1.The MSCI PIMFA (Private Investor Conservative Index) aims to represent the investment strategy of a UK private client adopting a conservative approach to their investment

2. For comparability to the next slide, the start period reflects the longest period available for CGT under which a Risk Asset and Bond attribution can be extracted from Bloomberg AIM

Both equity and bond portfolios have contributed to outperformance

CGT Risk Assets Returns Performance to October 2023¹

CGT Bonds Only Returns Performance to October 2023¹

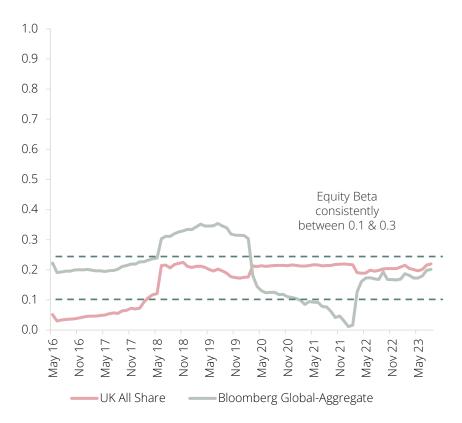

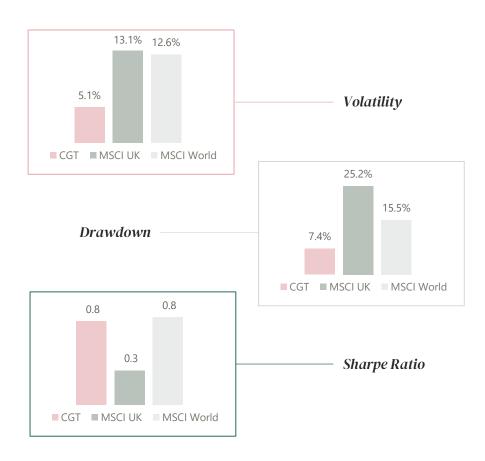

1.Risk Assets include equities, property, alternatives and gold. Bonds include credit and sovereign bonds (excluding T-Bills and cash), start period reflects the longest period available for CGT under Bloomberg AIM Source: Bloomberg Finance L.P., Northern Trust

Returns have come with low volatility, and low correlation to equity & bond markets, and excellent risk adjusted performance

Sharpe Ratio & Volatility (%) vs. Major Indices

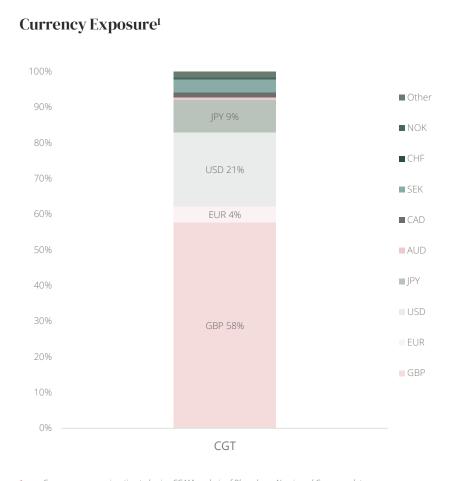

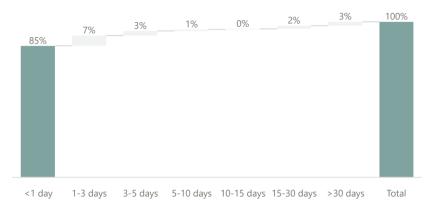

For comparability, the start period is taken from inception of the CG Absolute Return Fund. Source: Bloomberg Finance L.P, risk statistics per Bloomberg standard definitions.

Duration, currency and liquidity are actively managed

Duration and Yield³

	Weight	Duration (Yrs)	Yield (%)	Rating ⁴
Cash & Tbills	11%	0.1	3.7	AA-
I/L Bonds	48%	6.3	4.9 / 1.7	AAA
Corp. Bonds	13%	2.5	7.3	BBB+
Risk Assets (HY bonds)	1%	2.2	11.9	В
Risk Assets (other)	28%	n.a	6.1	n.a
	100%	4.7	5.2	A-

Duration refers to Option Adjusted Duration, Vield refers to yield to maturity for fixed income with real yield also shown for index linked and dividend yield for other risk assets which excludes high yield bonds
Bloomberg composite rating, Moody's weighted average rating for Cash & T-Bills

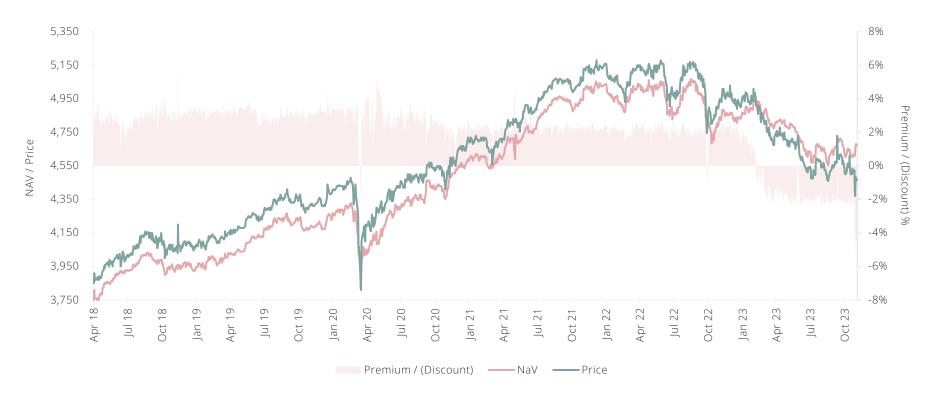

Currency exposure is estimated using CGAM analysis of Bloomberg, Numis and Company data

^{2.} Assumes 25% average daily volume participation rate

A discount has developed in CGT, so the company is buying back shares consistent with the discount control mechanism

Current Focus Areas

Real Interest Rates

Developed market issuers offering risk free inflation beating returns

US TIPS are offering attractive real yields

UK index linked are offering a particular opportunity post-October meltdown

Japanese Equities

The Yen is offering exceptional value, making Japanese corporates highly competitive and driving strong earnings growth

Credit

After an attractive opportunity to add in October, spreads have rapidly narrowed and now we are reducing our position

Infrastructure

Defensively positioned infrastructure assets with inflation linked cashflows are offering attractive real returns

Capital Gearing Trust

Approach to Responsible Investing

The principles underpinning our approach to responsible investment

Be honest

No greenwashing, no PR-led initiatives, no jargon. We believe in an accurate presentation of our activities not a marketing campaign.

One firm, one rule

Our standards apply to all the funds we advise. We do not have ethical and by implication unethical funds.

Ethics, not mathematics

There is no formula that can be applied in a uniform way to every situation. We emphasise judgement over simplistic third party ESG scoring systems.

Don't disinvest, engage

When investors have the influence to effect change it is most valuable to encourage positive transition rather than blanket disinvestment.

Targeted

As a small firm we must focus our efforts where they will have most impact rather than taking a generalist approach.

Driven by governance

Investors have multiple direct mechanisms to influence governance, so we primarily focus governance even when the ultimate objective is positive social or environmental change.

Integration, not separation

The entire team is collectively responsible for stewardship activities with the ultimate responsibility lying with the chief executive. We do not have a standalone responsible investment team.

Act, with humility

Every action results in both intended and unintended consequences. Reflect deeply on the risk that good intentions can lead to bad outcomes.

ESG integration by asset class

1. Direct Government Securities

A majority of the assets held by the funds are invested in direct holdings of securities issues by governments including bonds, bills and cash. As our capacity to influence governments is extremely limited, our primary approach is to exclude sovereigns that do not maintain high ESG standards.

In order to help access these criteria we consider indices compiled by a range of NGOs and require sovereigns, at a minimum, to achieve strong rankings in at least four out of five of these criteria. In addition to using third party indices we also overlay our own subjective assessments which typically leads to material additional exclusions.

Index	Criteria
World Bank governance effectiveness index	Top quartile
World press freedom index	Good or satisfactory
Global freedom score	Free rating
UN human development index	Very high human development rank
Net zero by 2025 statement	Statement of intent by 2050 or earlier

2. Direct Corporate Credit and Preference Shares

The funds hold small quantities of direct credit and preference share holdings issues by corporate issuers. Given our small participation in the market and therefore limited influence, our primary approach is to exclude corporate issuers who are primarily engaged in the following activities:

Exclusion Area	Exclusion sub-Area	Threshold	
Controversial weapons	Anti-personnel mines, cluster munitions, chemical weapons	0%	
Tobacco	Manufacture or marketing	<5%	
Thermal Coal	Coal mining or coal-based energy production	<5%	
Oil sands or arctic drilling	Production	<5%	
Gambling	Services	<5%	
Adult entertainment	Production or broadcasting	<5%	
Firearms	Manufacture	<5%	
Predatory lending	Services	<5%	

ESG integration by asset class

3. Listed Closed-Ended Funds, Investment Trust, REITs and Property Companies

CGAM has a long history of active engagement in the London market for listed closed ended funds and other collective investment companies including REITs. In this priority area for engagement we seek to achieve positive transition so do not employ systematic exclusions.

Listed investment companies are fundamentally different to operating companies and typically have the following features:

- They hold a broad portfolio of securities on behalf of their shareholders;
- External investment managers rather than executive management teams;
- No employees or customers; and
- Have a board of directors to represent shareholder interests and concerns.

Given the prominent role that directors play in investment companies CGAM frequently undertakes activities that aim to influence boards and ultimately improve governance. The techniques employed vary based on the specific scenario but include those listed here (see box).

As well as engagement in the sector, CGAM places particular weight on providing primary capital to high impact investment companies with an environmental or social focus. In our assessment by providing primary capital, via IPO sponsorship or follow on fund raisings, investors have a greater impact than by simply trading securities in the secondary market.

Activist Engagement Technique	Frequency of Employment
Management Engagement	Continuous
Board Engagement	Continuous
Shareholder co-ordination	Frequent
Voting against significant resolutions	Frequent
Raising ESG matters in fund reporting	Frequent
Amplification through press engagement	Periodic
Replacing directors to improve governance	Periodic
Publishing open letters	Periodic
Publishing research incorporating ESG views	Periodic
Threatening to requisitioning meetings	Periodic

4. Exchange Traded Funds ('ETFs')

Funds advised by CGAM hold relatively small quantities of exchange traded funds. ETFs are listed collective funds which typically track an index and provide low cost, efficient access to a broad portfolios of securities. CGAM does engage directly with our approved panel of ETF providers to encourage improved stewardship standards. However our capacity for effective engagement is limited, we therefore consider exclusions where there are suitable ETFs available. Typically this is via ESG screened ETFs which is a dynamic and growing sector. The programme of identifying and conducting due diligence on these products is ongoing.
