### Significant change

Since 30 September 2023 (being the end of the last financial period of the Company for which financial information has been published), there has been no significant change in the financial position of the Company except that, as announced on 31 October 2023, the Company has placed temporary limits on buy backs under its discount and premium control policy while it awaits approval from the Northern Irish Courts to cancel the Company's share premium account and create additional distributable reserves. As at 30 September 2023, the Company's distributable reserves stood at £47.7 million. Between 30 September and 27 November 2023, being the latest practicable date prior to the date of this document, the Company has bought back 570,197 shares for an aggregate consideration of £25.8 million and therefore limited reserves remain available. Shareholder should be assured that the Board remains fully committed to the discount and premium control policy and these temporary modifications will be reversed as soon as the Northern Irish Court process is concluded and the Company's distributable reserves have been increased.
