

A black and white photograph of two mountain goats standing on a dark, craggy rock face. The goat on the left is standing upright, facing slightly towards the viewer, while the goat on the right is in a more crouched position, looking towards the left. The background is a dark, textured rock wall with visible horizontal and vertical fissures.

Capital Gearing Trust

Overview

cgam

Capital Gearing Trust Overview

Investment Objective

- The Company's objective is to preserve and grow shareholders' real wealth over time
- The Company seeks **cost-effective, long-term absolute returns** via a global portfolio of equities, bonds and commodities
- It follows a simple, low-cost approach, no gearing, no short selling
- The Trust is actively managed, without reference to a benchmark

Fees and Structure

- Size: **£832m**
- Management Fee: **0.41%¹** | Ongoing Charge Figure: 0.55%
- FTSE 250 Listed Investment Trust with a **43-year track record**
- Discount Control Mechanism: The Company aims to purchase or issue shares to ensure that, under normal market conditions, the share price closely tracks the underlying Net Asset Value per share

Investor Profile

The fund has a broad range of investors who typically exhibit the following characteristics:

- A long-term investment horizon
- An aversion to significant short-term losses
- A desire to generate returns that outpace inflation over the long term
- A focus on GBP-denominated returns

1. Tiered fee structure, marginal rate is 0.3% above £500m

CG Asset Management Overview

2001

Founded

Founded in 2001 by Peter Spiller, former Chief Investment Officer and Chief Strategist of Cazenove

£2.4bn

AUM

£2.4bn in assets under management

2

Strategies

Manages two strategies, absolute return and real return, across six funds

12

Employees

Team of 12, based in London

284x

Return

Low-cost offering, with fee reductions regularly reviewed

2

Down Years

Capital Gearing Trust ("CGT") has returned 284x since 1982, with only two down years

CGAM in partnership with our clients

What makes us different?

The firm's founding principles

What does that mean for our clients?

1. The client comes first
2. Don't be greedy
3. Have fun

In turn these principles mean that:

- We have and will close funds to **protect investors**
- We continuously strive to **lower fees**, even on closed funds
- We have **low staff turnover**

Employee owned

- Majority owned by an Employee Ownership Trust, which means we will remain independent
- All portfolio managers are significant shareholders in CGAM

The right incentives

- A significant majority of our own capital is invested in our funds
- Our interests are directly aligned with those of our clients

Principles

5 inputs drive our asset allocation, underpinned by a focus on duration

Dynamic asset allocation that responds to the business cycle

3 Core Asset Allocation Pillars

Index-Linked bonds are a fundamental component of our asset allocation

Protection against financial repression

Only asset that we believe is likely to deliver protection

Negative correlation with risk assets

Particularly overseas against sterling denominated risk assets

Historic outperformance vs nominal bonds

Such outperformance is likely to persist into the future

Inflation poses the greatest risk to investor wealth

Against which equities are only a partial hedge

Significant risk of inflation persistence

The historical record does not support a swift return to the target

Annual Returns % of UK Stocks and TIPS – unhedged in GBP (1998 – 2022)

Capital Gearing Trust

Positioning and Returns

cgam

Positioning is defensive, with a focus on inflation protection

Duration, currency and liquidity are actively managed

Currency Exposure¹

Time to Liquidation (days)²

Duration and Yield³

	Weight	Duration (Yrs)	Yield (%)	Rating ⁴
Cash & Tbills	22%	1.0	4.6	A+
I/L Bonds	39%	6.6	4.2/ 1.4	AA
Corp. Bonds	11%	3.1	6.1	A/A-
Risk Assets (HY Credit)	1%	1.3	6.3	BB/BB-
Risk Assets (Div Yield Equity)	27%	n.a.	5.3	n.a.
CGT	100%	4.4		

1. Currency exposure is estimated using Bloomberg.

2. Assumes 25% average daily volume participation rate

3. Duration refers to Option Adjusted Duration, Yield refers to the nominal yield to maturity for fixed income with real yield also shown for index-linked bonds. For equities, yield refers to dividend yield. Cash & Tbills includes bank deposits, hedged and unhedged government instruments. We display the 6-month UK Treasury Bill yield as a conservative representation of the yield on the underlying holdings in this bucket.

4. Ratings are sourced from Bloomberg and Moody's.

Current Focus Areas

Real Interest Rates

Developed market issuers offering risk free inflation beating returns

US TIPS are offering attractive real yields

UK index-linked are offering an attractive opportunity for portfolio construction

Japanese Equities

The Yen is offering exceptional value, making Japanese corporates highly competitive and driving strong earnings growth

Investment Trusts

The average discounts have widened to levels last seen since the financial crisis, and there is scope for active engagement with boards

Infrastructure

Defensively positioned infrastructure assets with inflation linked cashflows are offering attractive real returns

Capital Gearing Trust

Considerations Within Our Investment Approach

The moral principles underpinning our investment approach

Be honest

No greenwashing, no PR-led initiatives, no jargon. We believe in an accurate presentation of our activities not a marketing campaign.

One firm, one rule

Our standards apply to all the funds we advise. We do not have ethical and by implication unethical funds.

Ethics, not mathematics

There is no formula that can be applied in a uniform way to every situation. We emphasise judgement over simplistic third party ESG scoring systems.

Don't disinvest, engage

When investors have the influence to effect change, it is most valuable to encourage positive transition rather than engage in blanket disinvestment.

Targeted

As a small firm, we must focus our efforts where they will have the most influence, rather than taking a generalist approach.

Governance

Investors have multiple direct mechanisms to influence governance, so we primarily focus on governance even when the ultimate objective consists of other priorities.

Integration, not separation

The entire team is collectively responsible for stewardship activities, with the ultimate responsibility lying with the chief executive. We do not have a standalone responsible investment team.

Act, with humility

Every action results in both intended and unintended consequences. Reflect deeply on the risk that good intentions can lead to unintended negative outcomes.

Considerations for individual asset classes

1. Direct Government Securities

The majority of the assets held by the funds are invested in direct holdings of securities issues by governments including bonds, bills and cash.

When investing, we consider indices compiled by a range of NGOs and require sovereigns, at a minimum, to achieve strong rankings in at least four out of five of these criteria. In addition to using third party indices, we also overlay our own subjective assessments which typically leads to material additional exclusions.

As we manage funds that invest exclusively in US and UK bonds respectively these jurisdictions will always be included but other sovereigns are subject to these exclusion criteria.

Index	Criteria
World Bank governance effectiveness index	Top quartile
World press freedom index	Good or satisfactory
Global freedom score	Free rating
UN human development index	Very high human development rank
Net zero by 2020 statement	Statement of intent by 2050 or earlier

2. Direct Corporate Credit and Preference Shares

The funds hold small quantities of direct credit and preference share holdings issues by corporate issuers. Given our small participation in the market and therefore limited influence, our primary approach is to exclude corporate issuers who are primarily engaged in the following activities:

Exclusion Area	Exclusion sub-Area	Threshold
Controversial weapons	Anti-personnel mines, cluster munitions, chemical weapons	0%
Tobacco	Manufacture or marketing	<5%
Thermal Coal	Coal mining or coal-based energy production	<5%
Oil sands or arctic drilling	Production	<5%
Gambling	Services	<5%
Adult entertainment	Production or broadcasting	<5%
Firearms	Manufacture	<5%
Predatory lending	Services	<5%

Considerations for individual asset classes

3. Listed Closed-Ended Funds, Investment Trust, REITs and Property Companies

CGAM has a long history of active engagement in the London market for listed closed ended funds and other collective investment companies including REITs. In this priority area for engagement, we seek to achieve positive transition so do not employ systematic exclusions.

Listed investment companies are fundamentally different to operating companies and typically have the following features:

- They hold a broad portfolio of securities on behalf of their shareholders;
- External investment managers rather than executive management teams;
- No employees or customers; and
- Have a board of directors to represent shareholder interests and concerns.

Given the prominent role that directors play in investment companies, CGAM frequently undertakes activities that aim to influence boards and ultimately improve governance. The techniques employed vary based on the specific scenario but include those listed here (see box).

As well as engagement in the sector, CGAM places particular importance on providing primary capital to high impact investment companies and a number of our holdings have a positive environmental or social focus. In our assessment, by providing primary capital, via IPO sponsorship or follow on fund raisings, investors have a greater impact than by simply trading securities in the secondary market.

Activist Engagement Technique	Frequency of Employment
Management Engagement	Continuous
Board Engagement	Continuous
Shareholder co-ordination	Frequent
Voting against significant resolutions	Frequent
Raising ESG matters in fund reporting	Frequent
Amplification through press engagement	Periodic
Replacing directors to improve governance	Periodic
Publishing open letters	Periodic
Publishing research incorporating ESG views	Periodic
Threatening to requisitioning meetings	Periodic

4. Exchange Traded Funds ('ETFs')

Funds advised by CGAM hold relatively small quantities of exchange traded funds. ETFs are listed collective funds which typically track an index and provide low cost, efficient access to a broad portfolios of securities. CGAM does engage directly with our approved panel of ETF providers to encourage improved stewardship standards. However our capacity for effective engagement is limited, we therefore consider exclusions where there are suitable ETFs available. Typically this is via ESG screened ETFs which is a dynamic and growing sector. The programme of identifying and conducting due diligence on these products is ongoing.
